

InnerWireless Named a “Red Herring 100 Global” Award Winner

Provider of converged wireless enterprise services ranks among world’s top tech start-ups

RICHARDSON, Texas – Dec. 10, 2007 – InnerWireless, the premier provider of converged wireless solutions, today announced that it has been selected as a winner of the Red Herring 100 Global Award.

Red Herring 100 winners and finalists from North America, Europe and Asia of the last three years were eligible for this award. The Red Herring editorial team used a very competitive process to whittle down this pool of 1,800 eligible promising companies to the 100 winners of this first-time award. Evaluations were made on both quantitative and qualitative criteria such as financial performance, innovation, management, global strategy and ecosystem integration.

“It’s a tremendous honor to win the Red Herring Global 100 award because it reflects InnerWireless’ commitment to making mobility a value-generating asset for the world’s leading enterprises and their workforces,” said Ed Cantwell, president, CEO and chairman of InnerWireless. “We help our customers achieve new levels of efficiency and productivity by leveraging their investments in mobility by transforming networks into truly converged wireless enterprises where voice, data, video and location services can be delivered everywhere and all the time. We are proud of the recognition we received from Red Herring and from our customers who rely on InnerWireless to deliver their business- and mission-critical wireless and location technology with enterprise-level performance.”

The winning companies were announced and celebrated at the Red Herring Global event in Seattle, Wa., Dec. 3-5.

About InnerWireless

InnerWireless, the only fully integrated wireless and location services company, offers end-to-end solutions in markets where wireless and location services are mission- and life-critical. Horizon is a broadband distribution platform that optimizes all of the wireless services needed in large buildings, including cellular/PCS, WMTS, WLAN, VoIP, and two-way radios for security and first responders. The company’s other core product suite is PanGo, an integrated asset tracking/location management solution that allows organizations to leverage standards-based 802.11 and RFID infrastructure to locate assets and people. PanGo also location-enables many third-party systems for asset management, workflow automation and enterprise safety.

About Red Herring

Red Herring is a global media company uniting the world’s best high technology innovators, venture investors and business decision makers in a variety of forums: a leading innovation magazine; an online daily technology news service; technology research, and major events for technology leaders around the globe. Red Herring provides an insider’s access to the global innovation economy, featuring unparalleled insights on the emerging technologies driving the economy.
